The ladies aid society of the Christian church met at the Park hotel Thursday, taking their dinners with them. As the editor is an honorary member of the society he got an invitation to dinner, and of course accepted. The dinner is just such an one as might be expected. To use an old-time phrase, the tables fairly groaned under the load of good things—and the editor was in about the same condition after dinner. Bro. Sapp and the three schoolma'ams ate at the same table that we did and they acted like they were used to that kind of dinners all the time. We tried to act the same way but are afraid we didn't succeed very well.

George Warren Cummings, son of G. W. Cummings, and Miss Olive Ruth Sutton, daughter of G. H. Sutton, both of Howe, Nebr., were married at 8 o'clock Sunday evening at the home of the bride's parents, by Rev. G. W. Ayers. After the ceremony and congratulations a sumptuous supper was served. Only immediate relatives of the contracting parties were present. They were serenaded by some of their many friends and showered with rice when they made their appearance. Both are very popular young people in the community where they have lived nearly all their lives. The Advertiser unites in congratulations and best wishes with the many friends of Mr. and Mrs. Cummings.

P. Kerker has at his meat market an ear of corn raised by G. E. N. Sanders of London precinct that is about as near perfect for its kind as we have ever seen. It is a ninety day yellow corn. The ear is not large but the cob is filled with well developed grains from the butt to the tip—in fact, there is not room on the cob for another grain of corn. It was planted the middle of May, and in early part of September some of the corn that shelled and fell on the ground sprouted and started to grow. Mr. Sanders got 45 bushels per acre of this corn—a good yield for this year. He has some corn that goes over 60 bushels per acre.

"Get in the habit" of going To Sunday school on Sunday at 10 To church on Sunday at 11. To church on Sunday at 7:30. To choir practice Tuesday at 7:30. To prayer meeting Thursday 7:30. To prayer meeting Friday, 7:30. To the revival meetings. In Nemaha.

J. P. Quillen of Brownville gave us a call Thursday afternoon and showed us a piece of something that we couldn't name. It is a hard, black, oily substance of the nature of soapstone, but resembles closely the blackjack found in coal. It is usually found where coal abounds. Mr. Quillen found it on his farm south of Nemaha. A vein of coal about six inches thick crops out of the edge of the bluff a few feet below where this black substance was found.
